QualSight Patient Testimonials

"I am so pleased with the outcome of my surgery. In fact, I have referred several coworkers to QualSight. The surgeon and staff were friendly and professional and made me feel completely at ease before, during and after the procedure."

Kathryn L., Tennessee

"I am so very impressed with the LASIK plan and have already recommended both QualSight and their physicians. Thank you for a wonderful experience!"

Rain M., Nevada

"Remarkable service, everything went extremely well, my wife's vision in both eyes is now 20/15 and she has donated her glasses to charity."

Patrick D., Maryland

"I am so glad for QualSight! I had been interested in the LASIK procedure for a long time, but once I saw the great deal with such a fantastic doctor, I couldn't wait any longer. My vision is now 20/15 in both eyes. Thank you, QualSight, for making this possible!"

Keisha P., North Carolina

The QualSight Solution

QualSight offers a Laser Vision Correction plan that is easily accessible and affordable for the millions of Americans who could benefit from the LASIK procedure. Our mission is to provide members with affordable access to laser vision correction through a national network of credentialed, Board Certified Ophthalmologists. The savings QualSight provides are substantial: 40% to 50% off the national average price for LASIK.

LASIK: Modern Vision Care

Since LASIK was approved by the FDA to treat vision correction, over 10.9 million procedures have been performed in the United States. A recent study by the Vision Council of America found that more than a third of Americans who use corrective eyewear are considering having this elective procedure to improve or correct their vision. Fortunately, with recent advances in optical surgical procedures, the majority of those needing vision correction can now take advantage of LASIK. **Whether a patient is nearsighted, farsighted, or has astigmatism, there is a Laser Vision Correction procedure available.**

"I would recommend QualSight to anyone, they were very helpful and explained every question I had in detail. I am very pleased overall."

Amber - Campton, Kentucky

The Most Popular Elective Surgery

LASIK is the most popular elective procedure. In 2006 approximately 1.4 million procedures were performed in the United States alone. And the success rate speaks for itself - 97% of patients today have equal to or better vision after LASIK than they had with corrective lenses. Contact a QualSight Care Manager today and find out if you are a potential candidate for this life changing procedure.
